

INSURANCE INVESTIGATIONS

Insurance-related cases such as disability claims, motor vehicle or work-related accidents and issues of negligence can be costly and time-consuming. ICORP Investigators have a wealth of experience and the extensive expertise needed to help you tackle these issues.

WE KNOW IT IS CRITICAL TO HAVE ACCESS TO ALL CURRENT AND PAST INVESTIGATIONS

Our web-based case management system is designed to streamline the process of managing an investigation. This provides our clients with “always-on” 24-hour access from any location; securely view progress reports with streaming video and photographs to all ongoing and completed cases, and submit new cases 24 hours a day.

According to the Coalition Against Insurance Fraud, fraud costs the insurance industry over \$80 billion per year. It is critical that every organization have all the facts before making decisions that can impact their financial well-being.

ICORP'S INSURANCE INVESTIGATIONS INCLUDE:

Real-Time Surveillance - Our experienced investigators maintain real-time surveillance utilizing high-definition video and photography at a claimant's residence and during their personal outings, as well as all medical/legal appointments.

SIU Investigations - Our experienced investigations team are able to complete on-site investigations for contributing factors, third party potential, canvass for and interview independent witnesses, locate and procure surveillance system footage, and research the area to determine if any state and/or compliance regulations apply.

Comprehensive Background & Social Media Reports - Having as much background information about the claimant is important. Who are they? Do they have a criminal record? Have they done this before? Are they a trustworthy individual?

You can learn a lot about a claimant with access to comprehensive investigation reports that allow you to review his/her business and social media history, assets, criminal history, bankruptcy declarations, and prior losses of a similar nature, or prior incidents involving a similar body part.
